RE: Hendrickson Trailer Suspension System / 011-16312-00037

FROM: Paul Dubenetzky
Chief, Permits Branch
Office of Air Quality

Notice of Decision: Section 112(j) Applicability Determination

Please be advised that on behalf of the Commissioner of the Department of Environmental Management, I have issued a decision regarding the enclosed matter. Pursuant to IC 4-21.5-3-5(f) this order is effective fifteen (15) days after it is served. When served by U.S. mail, the order is effective eighteen (18) calendar days from the mailing of this notice pursuant to IC 4-21.5-3-2(e).

If you wish to challenge this decision, IC 4-21.5-3-7 requires that you file a petition for administrative review. This petition may include a request for a stay of effectiveness and must be submitted to the Office of Environmental Adjudication, 100 North Senate Avenue, Room 1049, Indianapolis, IN 46204, **within eighteen (18) calendar days of the mailing of this notice**. The filing of a petition for administrative review is complete on the earliest of the following dates that apply to the filing:

- (1) the date the document is delivered to the Office of Environmental Adjudication (OEA);
- (2) the date of the postmark on the envelope containing the document, if the document is mailed to OEA by U.S. mail; or
- (3) the date on which the document is deposited with a private carrier, as shown by receipt issued by the carrier, if the document is sent to the OEA by private carrier.

The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by the decision or otherwise entitled to review by law. Please identify the permit, decision, or other order for which you seek review by permit number, name of the applicant, location, date of this notice and all of the following:

- (1) the name and address of the person making the request;
- (2) the interest of the person making the request;
- (3) identification of any persons represented by the person making the request;
- (4) the reasons with particularity, for the request;
- (5) the issues, with particularity, proposed for consideration at any hearing; and
- (6) identification of the terms and conditions which, in the judgment of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing documents of the type issued by the Commissioner.

If you have technical questions regarding the enclosed documents, please contact the Office of Air Quality, Permits Branch at (317) 233-0178. Callers from within Indiana may call toll-free at 1-800-451-6027, ext. 3-0178.

Re: Response to Review Request No. 16312:
Section 112(j) Applicability Determination
Plant ID: 011-00037

Dear Mr. Bahr:

Hendrickson Trailer Suspension Systems, located at 180 Mount Zion Road in Lebanon, Indiana, submitted a request for an applicability determination regarding the requirements of Section 112(j) of the Clean Air Act (CAA) on April 18, 2002. The letter was submitted in accordance with 40 CFR 63.52(d)(1) and requested that the Indiana Department of Environmental Management, Office of Air Quality (IDEM, OAQ) determine if Hendrickson Trailer Suspension Systems is subject to the requirements of Section 112(j) (40 CFR 63.50 through 63.56) for the Miscellaneous Metal Parts and Products Surface Coating source category.

Pursuant to 40 CFR 63.50, the requirements of Section 112(j) will apply only if your entire source is a major source of hazardous air pollutants (HAPs) and one or more of your processes or emissions units belong in a category or subcategory for which the United States Environmental Protection Agency (U.S. EPA) has failed to promulgate an emission standard on or before the Section 112(j) deadline. IDEM, OAQ has determined that your source is not subject to Section 112(j) for the Miscellaneous Metal Parts and Products Surface Coating source category. An explanation of this determination is provided below.

MAJOR SOURCE DETERMINATION

The information submitted in the Part 1 MACT Application indicates that Hendrickson Trailer Suspension Systems is not a major source of HAPs. However, the Title V permit, T011-11925-00037, for Hendrickson Trailer Suspension Systems, issued on October 2, 2000, indicates that the source is a major source of HAPs. Since Hendrickson Trailer Suspension Systems is a major source of HAPs, IDEM, OAQ evaluated the source categories for which Hendrickson Trailer Suspension Systems requested an applicability determination.

SOURCE CATEGORY DETERMINATION

Miscellaneous Metal Parts and Products Surface Coating NESHAP

Since the final MACT standard for Miscellaneous Metal Parts and Products Surface Coating was promulgated on January 2, 2004, Hendrickson Trailer Suspension Systems is no longer subject to Section 112(j) for that source category; however, Hendrickson Trailer Suspension Systems may be subject to the promulgated MACT standard. Hendrickson Trailer Suspension Systems should check the applicability of the MACT standard. If the promulgated MACT is applicable, Hendrickson Trailer Suspension Systems shall comply with the promulgated MACT standard in accordance with the schedule

provided in the MACT standard. The MACT requirements include the applicable General Provisions requirements of 40 CFR 63, Subpart A. Pursuant to 40 CFR 63.9(b), if Hendrickson Trailer Suspension Systems is subject to the MACT, Hendrickson Trailer Suspension Systems shall submit an initial notification not later than 120 days after the effective date of the MACT, unless the MACT specifies otherwise. The MACT and the General Provisions of 40 CFR 63, Subpart A will become new applicable requirements, as defined by 326 IAC 2-7-1(6), that must be incorporated into the Part 70 permit. After IDEM, OAQ receives an initial notification, any of the following will occur:

- (A) If less than three years remain on the Part 70 permit term at the time the MACT is promulgated, the owner or operator of the affected source must include information regarding the MACT in the renewal application, including the information required in 326 IAC 2-7-4(c); or
- (B) The owner or operator of the affected source may submit an application for a significant permit modification under 326 IAC 2-7-12 to incorporate the MACT requirements. The application may include information regarding which portions of the MACT are applicable to the emission units at the source and which compliance options will be followed.

If the promulgated MACT is not applicable, no further action regarding the MACT will be necessary.

If U.S. EPA promulgates a final MACT standard prior to IDEM, OAQ issuing a permit containing the Section 112(j) determination requirements, a source is no longer subject to Section 112(j) for that source category, including the requirement to submit a Section 112(j) Part 2 MACT Application. A source is still subject to Section 112(j) for any other source categories that do not have promulgated MACT standards.

This determination is based on the information provided by Hendrickson Trailer Suspension Systems, IDEM, OAQ records, and the information currently available from the U.S. EPA. Note that if additional equipment or capacity is added or operational practices are changed (e.g., switching solvents from a solvent that contains no HAPs to a solvent containing HAPs), the Section 112(j) requirements may be triggered in accordance with 40 CFR 63.52(b). If the events described in 40 CFR 63.52(b) occur at the source, Hendrickson Trailer Suspension Systems shall submit a Part 1 MACT Application in accordance with the requirements and schedule contained in 40 CFR 63.52(b).

Questions should be directed to Kim Cottrell, IDEM, OAQ, 100 North Senate Avenue, P.O. Box 6015, Indianapolis, Indiana, 46206-6015, or call (800) 451-6027, and ask for Kim Cottrell at extension 3-0870, or dial (317) 233-0870.

Sincerely,

Original Signed by Paul Dubenetzky
